PROJECT CONCEPT

The architectural style of this building embraces the **Modern Industrial** aesthetic of New York City. The architectural style highlights the use of trusses as an exterior feature, which not only adds structural integrity but also creates a sense of connectivity between the two buildings while showcasing the facility.

The project concept aims to create a building that is not only visually appealing but also exudes a sense of fun and excitement. The prominent use of truss structures not only adds a distinctive architectural touch but also captures the essence of blending classic and modern elements. The overall result is a building that stands out and creates a memorable impression.

PROJECT HIGHLIGHT

MORE...LOCATION

Conveniently located near 3 public transit options, situated close to 2 entrance points for expressways, and well-connected to 6 main roads.

MORE...FACILITY

Shuttle Service

MORE...SECURITY

6 Level security at the Main Gate and building entrance / Designated floor lift using key card / Digital Door lock/ CCTV/ 24 Hrs. security.

MORE...LIFESTYLE

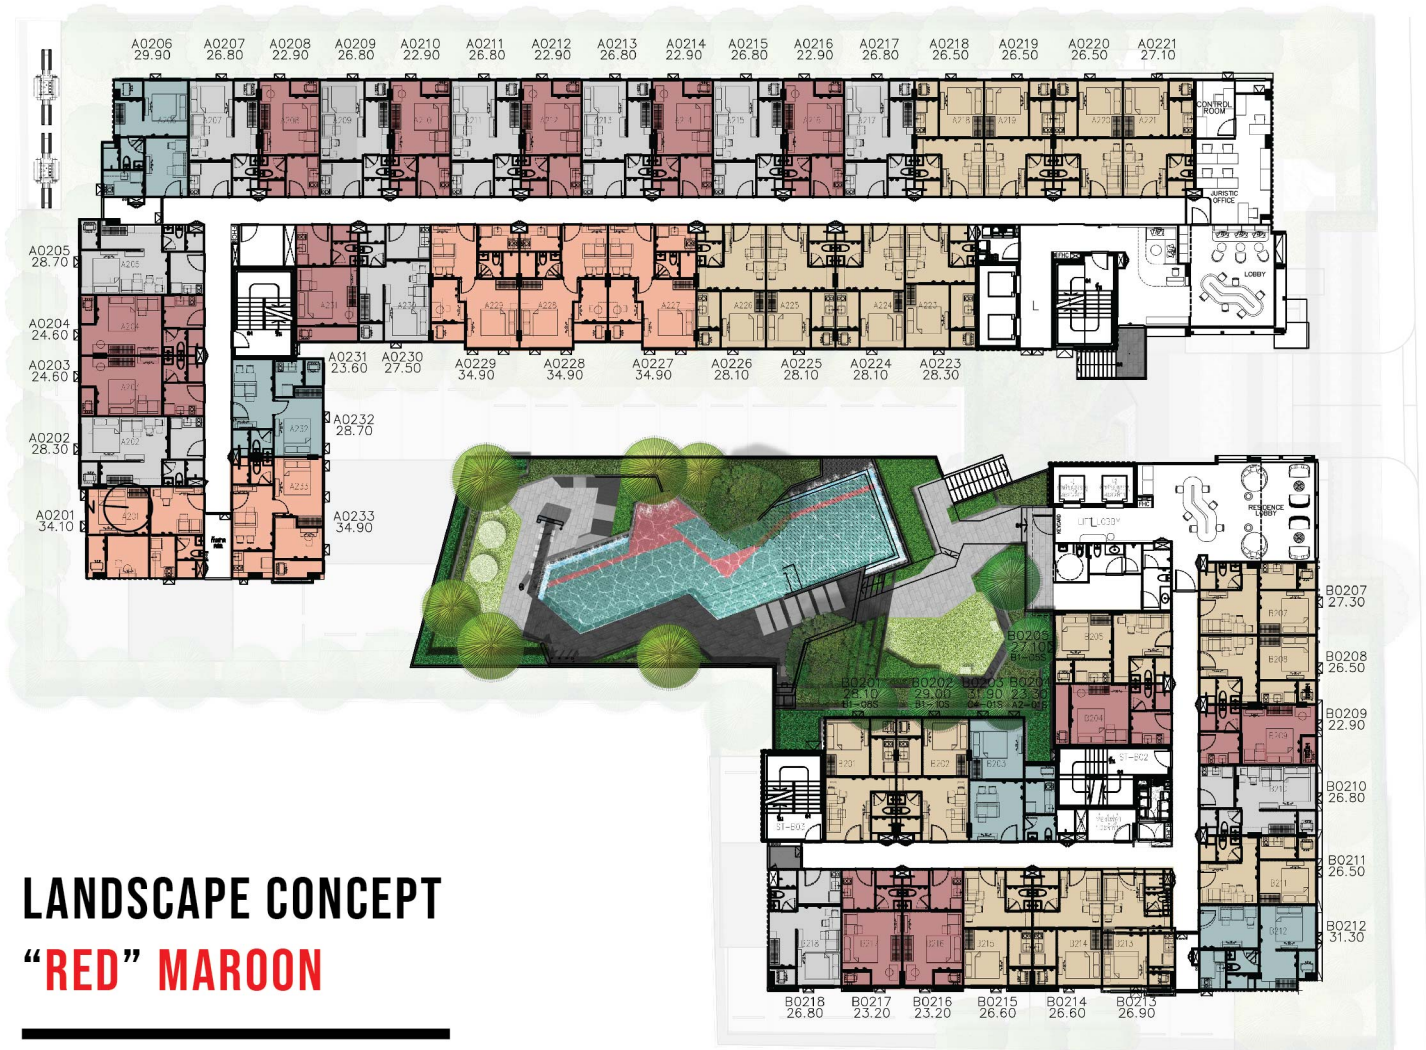

Near Community malls and various leading department stores.

MORE...TECHNOLOGY & FUNCTION

Thoughtfully designed with customers / Digital Door lock.

MASTER PLAN

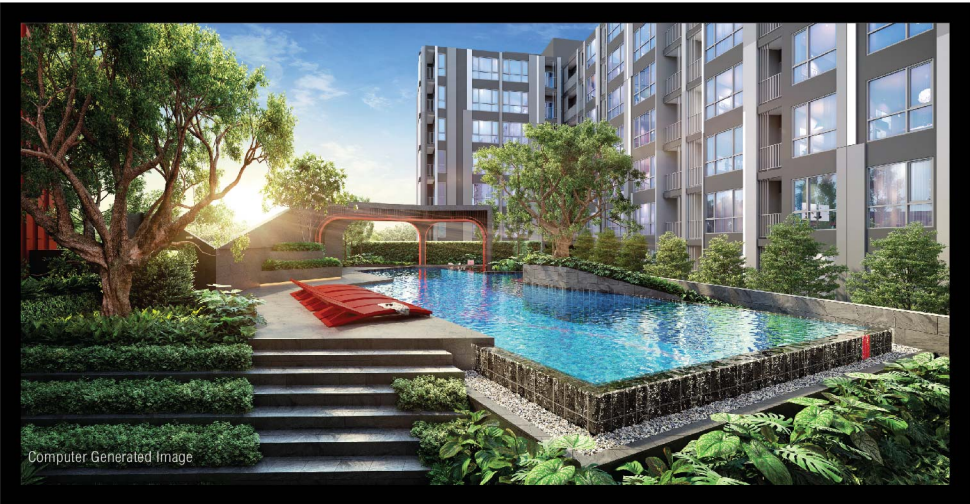

LANDSCAPE CONCEPT “RED” MAROON

The landscape design created a visually stunning and harmonious environment by incorporating dark tones to match the building, adding pops of Maroon Red for a touch of color and lifestyle, utilizing a prominent dark-colored feature wall at the project's entrance, enhancing the atmosphere with a special feature tree, creating an outstanding entrance through special pavement with alternating white-gray-dark gray gradients, featuring a main hall with a giant feature tree resembling a mountain line, complemented by shrubs arranged in a similar pattern, integrating inclined walls and hidden indirect lighting to create a breathtaking aesthetic during both daytime and nighttime.

Discover the Lap Pool area, a luxurious oasis nestled between Buildings A and B in the Enclosed Space. This 20-meter long and 1.2-meter deep pool creates a haven of relaxation. Admire the elegant Red Maroon line that runs along the floor, connecting the two ends of the pool gracefully. Adjacent to the Lap Pool, the Ruby Jacuzzi pool offers a seamless and convenient experience. Stepping into the lap pool area through dark-tone walls that flank the entrance, creating a visually appealing symmetry. With an Overflow Pool Edge and the soothing sounds

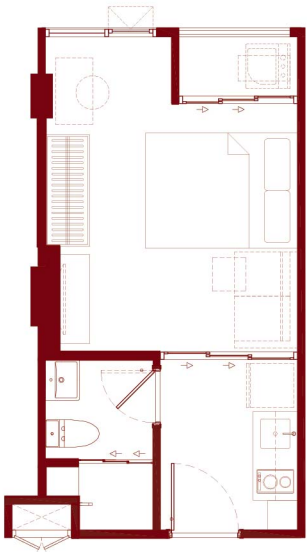

of a waterfall, the lap pool area exudes a serene ambiance that evokes a luxurious vacatio home. Unwind, rejuvenate, and experience true tranquility in this haven of pure indulgence.
